

BAND NAME

Roman Schuler extended Trio (RSxT)

COPY

RSxT combines the lyrical power of the piano with the vitality of groove music. The recent album „On Behalf Of Myself“ is a fresh and contemporary interpretation of jazz, that brings the sound between the worlds of Jazz, Hip Hop and Electro to life. „Plus x“, consisting of synths, sounds and samples, gives the band a special impulsivity and a dynamic range from solopiano to a full fusion bandsound.

PRESS

“Clearly the Twelve!

RSxT plays groove-emphasized music between jazz and pop and makes usage of the possibilities that offer synthesizers and electronic effects in a extremely clever way.” Jazzthing (Germany)

“Schuler and his companions present themselves as a condemned unity, as a playful collective, which skillfully plays between tradition and the zeitgeist. "On Behalf Of Myself" is a recommendation - and not just for fans of jazz-trimmed piano trio.” Sounds&Books (Germany)

“Inimitably he combines the idea of jazz with hip hop and electronic music to an extremely grooving essence. Delicate synth sounds meet groovy hip-hop rhythms and convey sophisticated fusion sounds.” FAZE Mag (Germany)

Here everything is in flux: from one second to the other, a jazztune turns into a power pop song; Relaxed Fender Rhodes passages alternate with flickering synthesizersoli, Herbie Hancock and Chick Corea always behind the back. Kulurnews (Germany)
